## About the Course: 2024

This course is designed for complete beginners, qualified beauty therapists and medical professionals. Students who do not hold a recognized make-up certificate are required to attend our Essential Make-up Workshop prior to commencing their training. Proof of qualification is required.

*Permanent Make-up (PMU) also known as Micropigmentation or Cosmetic Skin Tattooing. It involves implanting pigments into the dermal layers of the skin where they remain visible for several years. Whether it's for lip, eye or brow enhancement, semi-permanent make-up is an increasingly popular treatment with excellent financial returns for your business. Clients who have over plucked their brows or who have suffered from thinning hair due to menopause or medication, really value having their brows enhanced in this way. Thinning lips, reduced volume and lost definition can all be enhanced with semi-permanent make-up and eyes can be given a subtle or dramatic effect with eyeliner treatments that won't smudge and give a youthful appearance.*

## Course Content

1. Anatomy & Physiology
2. Health, Safety & Salon Hygiene: Licensing, sterilization, disinfection & needle disposal
3. Client Consultation: Expectations
4. Equipment: Getting to know your machine
5. Colour Theory
6. Sales & Aftercare
7. Marketing

All LCN pigments are independently evaluated by the Swiss ROC Institute to guarantee their biocompatibility and color stability.

## Course Layout

- **6-day** Course
- **Day 1:** Theory
- **Day 2- 4:** Practical and 2 models per day are required (the model must have no previous permanent make up on the area)
